

## How to enrol in Blood-Borne Pathogens training online

1. Go to [www.portal.utoronto.ca](https://www.portal.utoronto.ca) and click on **log-in to the portal**

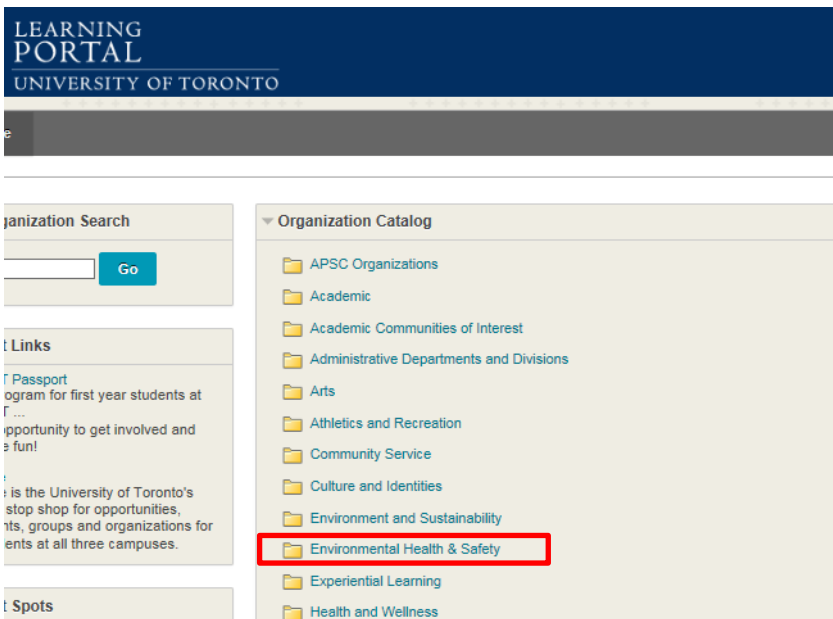

2. Login with your UTORid and password

A screenshot of the 'weblogin' form. At the top, a dark blue bar contains the word 'weblogin' in white. Below this, a light blue box contains the text 'The resource you requested requires you to authenticate.' followed by 'UTORid / JOINid' and a text input field. Below that is 'Password' and another text input field. A blue 'Log in' button with a right-pointing arrow is highlighted with a red box. At the bottom left of the box is a link for 'Forgotten Password?'.

3. Click on the **Community** tab on the top right

4. Click on **Environmental Health & Safety** under the Organization Catalog

5. Search for Blood-Borne Pathogen, hover beside the course code, click on the grey arrow and select **Enroll**

**Browse Organization Catalog**

Search Catalog Organization  Contains  AND Creation Date Before   ☒ Search this Category ☐ Search Entire Catalog

**Blood-Borne Pathogens Training**

Posted on: Wednesday, July 27, 2016 3:02:58 PM EDT

This course reviews blood-borne pathogens and exposure control principles, practices, and requirements as mandated by the Occupational Health and Safety Act and other regulations and guidelines. The course covers immunization, post-exposure prophylaxis and other emergency response measures and reporting requirements.

All personnel need to complete this course and pass the test prior to starting work or study with:

- Blood-borne pathogens such as prions, hepatitis B or C virus, and HIV virus.
- Human blood products, such as whole blood, plasma, serum, platelets, and white cells; or other human body fluids such as semen, cerebrospinal fluid, vaginal secretions, joint fluid, pleural fluid, peritoneal fluid, pericardial fluid, or amniotic fluid.
- Human tissue, organs, or primary cell cultures.
- Animals, or animal blood or body fluids or unfixed tissues, infected with blood-borne pathogens, OR performing tasks where such animals are housed.

**Prerequisite:** EHS601 Laboratory Biosafety course is a prerequisite for the Blood-borne Pathogens course.

9. Please go over the slides and the YouTube videos. Please note that the training video is not yet available online.
