

WHMIS 2015 Refresher Training (Non-Laboratory Staff)

Name of Employee:	_____	Name of Supervisor:	_____
Title:	_____	Title:	_____
Dept.:	_____	Date.:	_____

Field Exercise #1: Safety Data Sheet (SDS)

This exercise is intended to be completed between the supervisor and employee while in the work area. For this exercise, review the safety data sheet (SDS) for one hazardous product that is currently in use at the workplace.

Confirm if the employee can demonstrate the following: *(circle one)*

1. Is the employee able to identify the name of this hazardous product?
(Section 1 of SDS) Y / N
2. Is the employee able to identify some of the basic physical and chemical properties of this hazardous product? (e.g. solid/liquid/gas)
(Section 9 of SDS) Y / N
3. Is the employee able to identify the hazard(s) of this product based on the pictograms?
(Section 2 of SDS) Y / N
4. Is the employee able to identify some of the basic precautions to take when working with this product?
(Section 2 of SDS) Y / N
5. Is the employee able to identify the first aid measures to be taken in case of accidental exposure to this product?
(Section 4 of SDS) Y / N
6. Is the employee able to identify the personal protective equipment (if any) to be used with this product?
(Section 8 of SDS) Y / N

Field Exercise #2: Supplier Label

This exercise is intended to be completed between the supervisor and employee while in the work area. For this exercise, review the supplier label for one hazardous product that is currently in use at the workplace.

Confirm if the employee can demonstrate the following: (circle one)

1. Is the employee able to identify the name of this hazardous product? Y / N
(Product identifier)
2. Is the employee able to identify the main hazard(s) of this product based on the pictograms? Y / N
(Hazard pictograms)
3. Is the employee able to identify the hazard statements(s) and severity of the hazard (if any)? Y / N
(Hazard statement and signal word)
4. Is the employee able to identify some of the basic precautions to take when working with this product? (e.g. PPE, personal hygiene, storage, disposal) Y / N
(Precautionary statements)
5. Is the employee able to identify the measures to be taken in case of accidental exposure to this product? (e.g. skin contact, ingestion) Y / N
(Precautionary statements)
