

Managers - EHS002 Basic Health and Safety Awareness Training (BHSAT) training records

Nov. 5, 2025

Business officers can access these training records for their department. This access is aligned with their HRIS access.

1. Log into the LMS Dashboard: [LMS Dashboard](#).
2. Use filters on the right as needed (e.g. personnel subarea, organizational unit, division, course title).
3. Use scroll bar at the bottom to view information as needed (e.g. completion date).
4. An export feature is available (upper left hand corner).

The screenshot displays the 'Mandatory University Training Report' interface. The table lists training records with the following columns: Division, Email Address, Completion Date, Item ID, Title, and Personnel Subarea. The 'Export' button is highlighted in red in the top left corner. The filter sidebar on the right is also highlighted in red, showing dropdown menus for Personnel Subarea, Organizational Unit, Division, and Course Title. A red arrow points to the bottom of the table.

Division	Email Address	Completion Date	Item ID	Title	Personnel Subarea
