U of T - Office of Environmental Health and Safety
Laboratory Hazardous Waste Management Manual
<http://www.ehs.utoronto.ca/Resources/wmindex.htm>

Never mix incompatible Chemicals!

*Liquid Waste containers should only be **fill to 75%** of capacity to allow for expansion!*

***DON'T** use Bio bags or Radiation bags to collect chemical spills materials or leaking chemical containers!!*

*Liquid and solid radioactive waste **MUST** be segregated in containers provided by EHS!*

Place fill needle containers with filled Biowaste pails for collection

Do not place non-radioactive waste with radioactive waste!!

*Waste not properly labelled will **NOT** be removed!!*

Plan ahead for disposal or cleanouts!!
