U of T - Laboratory Hazardous Waste Management Manual  
[ehs.utoronto.ca/laboratory-hazardous-waste-management-and-disposal-manual/](http://ehs.utoronto.ca/laboratory-hazardous-waste-management-and-disposal-manual/)

*Never mix incompatible Chemicals!*

*Liquid Waste containers should only be **fill to 75%** of capacity to allow for expansion!*

***DON'T** use Bio bags or Radiation bags to collect chemical spills materials or leaking chemical containers!!*

*Liquid and solid radioactive waste **MUST** be segregated in containers provided by EHS!*

*Place fill needle containers with filled Biowaste pails for collection*

*Do not place non-radioactive waste with radioactive waste!!*

*Waste not properly labelled will **NOT** be removed!!*

*Plan ahead for disposal or cleanouts!!*
