Reference:

U of T - Laboratory Hazardous Waste Management Manual
ehs.utoronto.ca/laboratory-hazardous-waste-management-and-disposal-manual/

Know the Hazards of the Chemicals you work with everyday

Wear Personal Protective Equipment EVERYTIME you handle Chemicals

Understand and Know the location of the MSDS of the Chemicals you handle

Keep handy SOME Spill Cleanup Supplies

STOP - THINK! Do not rush. Carefully plan cleanup.

Reports of the incident should be made to Environmental Health and Safety and to the local joint health and safety committee

Restock the supply used from the Spill Kit

***U of T Police 978-2222 for After Hours Response
Please state type of spill, quantity, location, contact person and phone number.***

NOTE: Do NOT use BIO or RAD Bags for disposal of Chemical Waste
