Sequence for putting on/taking off surgical masks and disposable gloves

Putting on (order):

1) Surgical Mask
   - Secure ties or elastic bands at middle of head and neck
   - Fit flexible band to nose bridge
   - Fit snug to face and below chin

2) Gloves
   - Extend to cover wrist of cuff

Taking off (order)

1) Gloves
   - Using a gloved hand, grasp the palm area of the other gloved hand and peel off first glove
   - Hold removed glove in gloved hand
   - Slide fingers of ungloved hand under remaining glove at wrist and peel off second glove over first glove
   - Discard gloves in a waste container

2) Surgical Mask
   - Avoid touching the front of the mask
   - Grasp bottom ties or elastics of the mask/respirator, then the ones at the top, and remove without touching the front
   - Discard in a waste container

General

- Inspect all personal protective equipment (PPE) before donning; do not use damaged PPE
- Keep hands away from face; limit surfaces touched
- Change gloves if damaged or heavily contaminated
- Wash hands regularly with soap and water. Use hand sanitizer if not soap/water not available.
- PPE is not a replacement for hand hygiene. Wash/sanitize hands after removal. If your hands become contaminated during PPE removal, wash/sanitized before removing the rest of your PPE.
