**UCheck and UofT Community**

Effective Oct. 29, 2021, UofT community members with access to the Ucheck app may use their GREEN Ucheck screen to demonstrate proof of vaccination and identification. Event staff, coordinators and volunteers who are verifying this information must check the name and date on the Ucheck screen. Individuals who do not have the Ucheck app (e.g. external persons, visitors, etc.) must show a vaccination receipt or enhanced vaccine certificate and proof of ID as outlined in this Guide.

**Instructions for Verifying COVID-19 Vaccination Receipt without QR Code**

* A complete series means receiving all recommended doses of a Health Canada authorized vaccine or a combination of Health Canada authorized vaccines with at least the minimum recommended interval between doses.

- MVC-COV1901

*List may change per Health Canada
Example: Verifying COVID-19 Vaccination Receipt without QR Code

1. Acceptable Proof of Vaccination
   Digital, photograph, or printed paper copy of either: (a) Ontario receipt issued at time of vaccination or receipt from COVID-19 vaccination provincial portal; (b) receipt signed by Indigenous Health Provider; or (c) receipt from another jurisdiction.

2. Personal Identification
   Name and date of birth on vaccine receipt matches identification document (Box 1).

3. Health Canada Authorized Vaccine Received?
   See list (Box 2).

4. Recommended Number of Doses Received?
   See list (Box 2).

5. Individual Fully Vaccinated?
   14 days have passed since receiving the second or final dose of a Health Canada authorized vaccine.
Instructions for Verifying COVID-19 Enhanced Vaccination Certificate with a QR Code

Open the Verify Ontario app on a mobile device.

Ask visitors to show their paper or digital, government-issued enhanced vaccine certificate with a QR code.*

Scan the QR code with the device’s camera.

After scanning the QR code, there will be one of the following results.

- **Verified**
  - Confirm the person’s name and date of birth with their personal identification (Box 1).
  - Accept

- **! There is a Problem**
  - QR code is issued by a province, territory or country that uses a different type of QR code; or QR code is issued by a non-government service (Box 2).
  - Follow "Instructions for Verifying Vaccination Receipt Without QR code".

- **Invalid Certificate**
  - The visitor is partially vaccinated; or 14 days may not have passed since visitor was fully vaccinated.
  - Do Not Accept

*Original vaccine receipts without the official QR code are still accepted.

**Box 1. Examples of acceptable identification documents:** Birth Certificate, Citizenship Card, Driver’s License, Health Card, Government (Ontario or other) issued ID, Indian Status Card/Indigenous Membership Card, Passport, Permanent Resident Card.

*Note a photo ID is not required.

**Box 2: Accepted forms of proof of vaccination**

The Verify Ontario app will scan and verify:
- Ontario-issued SMART® Health Card QR codes on enhanced vaccine certificates
- SMART® Health Card QR codes issued by another Canadian province, territory or health authority currently included in the app so far, including:
  - British Columbia
  - Quebec
  - Yukon

The app will not verify:
- QR codes created using a non-government website or app
- QR codes issued by health or government institutions that do not follow the SMART Health Card QR code standards
