

SUPPLEMENTAL AIR PURIFIERS IN CLASSROOMS CENTRALLY INSTALLED – FILTER CHECKS

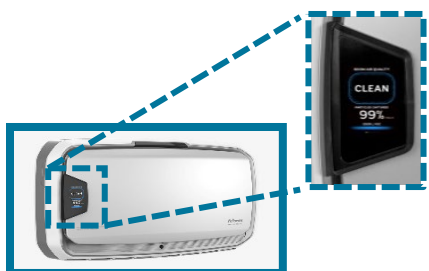

HEPA AND CARBON FILTERS ARE REGULARLY CHECKED.

Please refer to the manufacturer’s manual for details:

[AeroMaxPRO III-Product Manual](#)

[AeroMaxPRO IV-Product Manual](#)

Note: Supplemental air purifiers feature a front display that is not considered to be accurate. It uses a sensor for air quality which is **not calibrated and not an indication of filter replacement.**

To request an operational check, please contact your local facilities group: UTSG F&S at 416-978-3000, UTM FMP at 416-864-8025, UTSc Facilities Management at 416-287-7579.

If there are further concerns regarding an air purifier unit in a specific location, please contact EHS (ehs.office@utoronto.ca).
